Competitors and drivers must produce their Competition Licence, Vehicle Log Book and current Club Membership Card. Unless the Stewards of the Meeting have granted a waiver, those competitors and drivers who do not report for checking may not be authorised to participate in the Practice Sessions or Racing.

2.4 STARTING GRID (unless otherwise advised)

2.4.1 The grid shall be made up of two lines of cars arranged in order of the fastest times set by the cars during qualifying. If two or more cars achieve identical times, priority will be given to the one that achieved it first.

The car having obtained the fastest time in qualifying, shall start from pole position, which is on the right side of the front row of the grid.

- 2.4.2 The position of any car unable to reach its allocated grid position after the warm-up lap shall be left vacant, the other cars maintaining their positions on the grid.

2.5 START (unless otherwise advised)

- 2.5.1 Cars will be directed onto the circuit from the dummy grid and complete one warm-up lap. During the warm-up lap all cars will remain in their respective positions and return to their allocated grid positions.

Cars must not slow or stop and accelerate markedly doing burnt-outs practice starts while approaching grid places. When the first car lines up on the grid the starter will display the one minute board. When the Starter is satisfied that all cars are correctly positioned he will indicate, by displaying the ten second board, that there is approximately 5 seconds before the red lights are switched on. At any moment after the red lights come on, but not less than 3 seconds and not more than 5 seconds, the start of the race will be given by the extinguishing of the red lights.

If the lights are not functioning, the National Flag will be used, being raised at the 5 seconds mark, the race will start when the flag is lowered.

Any car experiencing difficulties during the warm-up lap may enter the pit lane instead of proceeding to the grid. This car may then start, but from the pit lane exit (having come under Starters orders) but only on the direction of an official, and after the rest of the field has passed the pit lane exit. Any driver not following the above starting procedure may be penalised by the addition of a 1 minute penalty, or may be excluded from the event as determined by the Stewards of the Meeting.

2.6 FINISH

The finish signal shall be given to the leading car as it has covered the required number of laps. Should the finish signal be inadvertently given before time, the race shall be considered terminated. Should the finish be given too late, the results shall be based on the positions held by the cars at the end of the required number of laps.

After receiving the chequered flag, drivers must reduce speed, maintain position and return to the paddock or parc ferme. They are not permitted to undertake any "burn-out" during their return to the paddock or parc ferme.

2.7 PARC FERME

If, at the conclusion of an event, a vehicle is required to enter parc ferme, it will be directed from the finish of that event to the parc ferme enclosure under the supervision of an official. The vehicle shall remain in parc ferme for at least 30 minutes after the posting of the provisional results or until the Stewards of the Meeting order its release. Competitors not complying with a lawful direction to place their vehicle in parc ferme may be excluded from the results of the Competition and may be subject to a Stewards Hearing.

2.8 PROTESTS AND APPEALS

Protests must be lodged in writing and handed directly to the Clerk of Course, or if this is not possible, to the Stewards of the Meeting, in accordance with Part xii of the NCR's and accompanied with the appropriate fee. Only the competitor or his appointed representative has the right to protest. The appeal procedure is conducted in accordance with Part xiii of the CAMS NCR's.
